

RECYCLING USED MOTOR OIL & ANTIFREEZE

Recycling used motor oil keeps it out of our waterways and ground water supplies. Some auto parts stores accept up to 5 gallons of used motor oil at a time at no charge.

Waste Antifreeze should never be disposed of down storm drains or into surface waters. Some automotive oil and lube companies in our area provide antifreeze disposal free of charge to the public.

Some local used motor oil recyclers

*Advance Auto Parts *Autozone *Fagans Crossroads *O'Reilly
*Tractor Supply (SiloamSprings only) *Wal-Mart

Some local antifreeze disposal providers

*Kwik Kar, 2214 W Walnut, Rogers *Valvoline, 3501 W Walnut, Rogers
*Your Automotive, 401 E Oak St., Rogers

PROPER DISPOSAL OF PAINT

Oil-based or alkyd paint is always considered a Household Hazardous Waste (HHW) and should be disposed of at a HHW collection facility.

Water-based or latex paint is not a hazardous waste. If there is a small amount of paint in the can, the lid can be removed and the paint allowed to dry. Adding cat litter or saw dust will speed up the drying process.

Donate Unused Paint: Habitat for Humanity will accept full cans of paint that are no older than 2 years at their Restore facility located at 908 SE 21st St., Bentonville 273-3638. Other non-profit organizations that may have a need for paint are: Boy Scouts, Girl Scouts, 4-H, fire departments, military bases, prisons, summer camps and donations for graffiti cleanups.
